Spray rate l/min	2
Spray pressure bar	2
max ram pressure bar	3

Description

Fresh water tank (45 litres) with filter element allows long periods of operation and protects the pump from contamination. Robust, compact housing made of durable impact-resistant plastics. Two large wheels for trouble-free mobility - also over thresholds. Two small castors ensure excellent manoeuvrability. Pushbuttons for spraying and vacuuming modes conveniently positioned on top of the unit. Easily removed transparent suction dome. Dirt water tank with capacity of 18 litres, easily removed.

Application

For medium-sized areas in commercial and private applications.

Spray-extraction cleaners

puzzi 300 S

Features & Benefits
