

A commercial single motor upright vacuum cleaner with innovative patented centrifugal clutch, 300 mm working width, stretch hose and telescopic tube to clean, comb and refresh the textile floors/ piles in hotels, boutiques, shops, showrooms, offices, stores, shopping center and households.

Standard accessories:

- Crevice tool
- Upholstery tool
- Detachable suction tube
- Corrugated suction hose
- Filter bag Fleece
- Filter condition indicator
- Height-adjustable handle
- Safety class II
- Roller brush 1 piece

Order no.: 1.023-101.0

Technical data

Working width (mm)	300
Air flow rate (l/s)	48
Vacuum (mbar/kPa)	207/20.7
Container capacity (l)	5.5
Max. intake performance (W)	max. 1150
Standard nominal width (mm)	35
Length of cord access. (m)	12
Sound pressure level (dB(A))	68
Power rating brush (W)	-
Weight (kg)	8.4
Dimensions (L x W x H) (mm)	320x310x1220

Details

Description

Professional cleaning demands high standards of engineering and quality. Kärcher brush-type upright cleaners incorporate modern technology and unique product benefits that meet all the requirements of professional vacuuming, sweeping and maintenance. Everything is engineered to the quality you expect from Kärcher: No compromises have been made. A manual adjustment enables you to set the brush to the ideal height for the pile being cleaned. And if the brush becomes blocked for any reason, an patented centrifugal clutch off the unit before any harm can be done. Suction tube (ID 35 cone) for problem areas. Kärcher upright vacuum cleaners are equipped with a detachable suction tube for vacuuming upholstery and getting into awkward corners and other difficult-to-reach areas. The replaceable brush roller is very simple to change (after mechanical wear of the brushes or to use a stronger brush roller with red bushes as an optional accessory) An automatic brush pressure release mechanism is activated when the unit is at a standstill to keep the brush in perfect shape and avoid damage to the carpet. Up to medium large areas are cleaned quickly with the CV 30/1. For using in shops, showrooms, offices, ticket halls, hospitals, hotels, restaurants, nursing homes or private households, the working width of 300 mm cleans even large areas in no time. The metal sole plate ensures a long service life in tough professional applications. Robust and durable. Twin joints between the brush head and body are designed to withstand the high flexing loads that occur in continuous-duty applications. A lot of thought has gone into Kärcher upright vacuum cleaners.

Application

For textile floor cleaning. Mechanical brush action makes the pile sit up.

Features & Benefits

Roller brush is exchangeable and driven by toothed belt • Economic, practical, optimum efficiency, economic and practical. Unique patented centrifugal clutch • protects the brush head from overload by e.g. blockage caused by textile part and subsequent servicing costs. Detachable suction tube with ID 35 cone • Enables surfaces to be cleaned that cannot be reached with the brush head Device to prevent unit being used without filter bag and safety filter • Protection against operator errors Electronic brush condition monitor • Optimum indication of condition of brush roller, correct height adjustment, bristle wear, brush blockage Flat and wide brush head • Cleans close to walls and under furniture Housings of vac and brush head made of high grade PPS plastic • Sturdy, impact resistant for heavy-duty applications, recyclable. Triple filter system, paper filter bag, motor protection filter, exhaust filter • Optimum filtration and max. utilization of filter bag capacity by filling from above. Protects motor against dust and dirt. Additional filter for exhaust air.

Accessories

Combi-nozzles (dry)

Combination nozzle packaged DN35

Plastic, with stainless steel soleplate and rollers, switchable

Order no. 6.906-874.0

Combination nozzles (dry), DN 35

Plastic with stainless steel soleplate, chageover Only CV and NT vacuum cleaners

Order no. 6.906-639.0

Combi-nozzle (dry), DN 35

Plastic with stainless steel soleplate, switchable, with IC 35 inside cone

Order no. 6.906-511.0

Crevice nozzles

Crevice nozzle DN 35

Plastic

Order no. 6.906-240.0

Exhaust air filter

Standard exhaust air filter

standard exhaust filter

Order no. 6.414-761.0

Fabric filter bag

Fabric filter bag
Cotton, washable (40°C)

Order no. 6.904-301.0

Fleece filter bags (3 ply)

Fleece filter bags CV 30/1 - CV 38/1, 300 pcs
Fleece filter bag, 3-ply, tear-proof, dust class M / large-scale consumer pack

Order no. 6.904-309.0

Fleece filter bags CV 30/1 - CV 38/1, 10 pcs
Fleece filter bag, 3-ply, tear-resistant, dust class M

Order no. 6.904-305.0

HEPA filter for dust class H

HEPA exhaust air filter
HEPA filter cassette, paper / plastic, (H 12)

Order no. 6.414-760.0

Paper filter (2 ply)

Paper filter bags
Dust class M / large-scale consumer pack

Order no. 6.904-303.0

Paper filter (2 ply)

Paper filter bags

dust class M

Order no. 6.904-294.0

Reducer (tube -> nozzle)

Reducer (tube -> nozzle)

From DN 35 to 32, metal

Order no. 6.902-072.0

Roller brushes for upright vacuum cleaners

Roller brush CV30/1, red

Red (hard), hard bristles (e.g. for needled felt)

Order no. 6.906-642.0

Roller brush CV30/1, standard

Black (normal), soft bristles

Order no. 6.906-641.0

Suction brushes

Suction brushes

Natural bristles (cattle hair), pivotable

Order no. 6.903-862.0
