Order no.: 1.057-304.0**Technical data**

Working width (mm)	460
Air flow rate (l/s)	44
Vacuum (mbar/kPa)	180/18
Container capacity (l)	5.5
Max. intake performance (W)	max. 1200
Standard nominal width (mm)	35
Length of cord access. (m)	12
Sound pressure level (dB(A))	66
Power rating brush (W)	200
Weight (kg)	9.5
Dimensions (L x W x H) (mm)	275x460x1250

Details

Description

Professional cleaning demands high standards of engineering and quality. Kärcher brush-type upright cleaners incorporate modern technology and unique product benefits that meet all the requirements of professional vacuuming, sweeping and maintenance. Everything is engineered to the quality you expect from Kärcher: No compromises have been made. A manual adjustment enables you to set the brush to the ideal height for the pile being cleaned. An electronic indicator shows you when the adjustment is right. And if the brush becomes blocked for any reason, the electronic control switches off the unit before any harm can be done. Suction tube for problem areas. Kärcher upright vacuum cleaners are equipped with a detachable suction tube for vacuuming upholstery and getting into awkward corners and other difficult-to-reach areas. A quarter of a turn is all that is really to release the suction tube from the unit. The brush motor is switched off automatically while the suction tube is in use. This avoids unnecessary brush wear and protects the carpet too. The replaceable brush strip is a really good idea. There is no need to replace the entire roller brush, only the brush strip. That helps save time and money. An automatic brush pressure release mechanism is activated when the unit is at a standstill to keep the brush in perfect shape and avoid damage to the carpet. Large areas are cleaned quickly with the CV 46/2. Be it in shops, showrooms, offices, ticket halls, hospitals, hotels, restaurants or private households, the giant working width of 455 mm cleans even large areas in no time. The metal sole plate ensures a long service life in tough professional applications. Robust and durable. Twin joints between the brush head and body are designed to withstand the high flexing loads that occur in continuous-duty applications.

Application

Contract cleaners, in hotels and restaurants, in shops and department stores as well as offices, conference rooms, foyers

Optional Accessories

All-purpose brushes

All-purpose brush, DN 35

Natural bristles (ox hair), bristle element 120 x 45 mm
