Length of cord access. (m)	7.5
Steam pressure (bar)	3.2
Weight without access. (kg)	7.5
Dimensions (L x W x H) (mm)	480x305x265
Frequency (Hz)	50-60

Details

Description

The DE 4002 is a steam cleaner for professional applications. One special feature of this unit is the continuous replenishment of the water level in the boiler via an additional water tank. This allows the operator to work for long periods without unnecessary interruptions. The 4.6 litres of water in the boiler and supply tank produce about 6000 litres of steam, which is sufficient for up to 5 hours of uninterrupted operation. As the supply tank is not under pressure, it is possible to top up with water at any time without having to wait for the unit to cool down. This robust unit comes with a wide range of standard accessories for versatile uses in kitchens and sanitary areas, cleaning hard and resilient floor coverings, windows, garden and home furniture. Hot steam removes soiling fast and effectively without chemical cleaners. A comprehensive line of special accessories, including i.e. a wallpaper stripper, extends the number of possible applications. Great importance is attached to user safety. The housing of the DE 4002 is splash-proof. The extra-low voltage in the handle is only 12V. Furthermore, the unit switches off as soon as the user lets go of the handle. An optical and acoustic indicator warns the operator when the water level is low. The 2.7-metre steam hose permits overhead operation without having to lift the unit. Steam feed is controlled directly on the trigger gun. A smooth-running double castor at the front and two large back wheels ensure good stability. Nozzles, cloths and other accessories are neatly accommodated on the unit so that they are ready for use at all times.

Application

Universal steam cleaner for professional applications. Environmentally-friendly, thorough cleaning and maintenance with hot steam. The ideal cleaner for floors, tiles, machines, radiators, upholstered furniture, toilets and cars.

Features & Benefits
