## Details

### Description

Push sweeper for simple and breezing cleaning of outdoor areas. Six times faster than a broom. Almost dust-free sweeping by airflow control and fine dust filter. Retractable side brushes. Main roller brush is height adjustable and therefore adaptive to different surfaces. Main roller brush is driven by both wheels. Push handle adjusts in 3 stages to suit height and reach of user and can be folded completely flat for space-saving storage. Machine is equipped with 2 side brushes as standard.

---

### Application

Almost dust-free and spring-clean purification of outdoor areas, i.e. petrol stations pavements gateways storage areas also for indoor areas i.e. work shops, halls, warehouses.

---

### Features & Benefits

Exhaust filter Operator friendly, low dust dispersion Operation principle: dustpan-and-brush little force required to push the machine Main roller brush adjustable by means of a knob Perfect adaptation of wear and pressure to the particular sweeping conditions Main roller brush is driven via both wheels Best sweeping result in bends and also very good straight-line control Foldable push-handle Easy transportation over stairs and space-saving storage Push-handle adjusts in 3 stages to suit height and reach of user Side brush stepless adjustable Adaptation to sweeping conditions
